1º Review of things created to date and lessons learned

2º Planning of the next iteration

DEVELOPMENT OF THE MEETING AND AGREEMENTS

1. Review of things created to date and lessons learned

We have had a little chaotic start of the spring because we everyone had obligations with exams of other subjects so the development of the project was secondary, and the team communication was low, but we could solve this near the end of the first week.

Solved this we had a smoot sprint, and with only a little problem with payment with PayPal, finished in time.

We think that we are prepared to tackle the last part of this project, finish the business plan and prepare the launch day.

2. Planning of the next iteration

We will wait until the Monday 13, May for the exact plan, but it will be related with the preparation of the launch day and finish the business plan
